**presented by
Continuing Competence Interest Group**

Join this interactive workshop to examine
and discuss:

- What research says about risks and supports to competence in health professionals
- How regulators might use risk and support data to inform and encourage effective performance in health professionals
- Examples of continuing competence programs influenced by risk and support information
- How health professionals receive and react to feedback data.

Workshop designed for:

- Continuing Competence Program leaders, health professions regulatory staff, committee and council members, non-health professional regulators
